

TWIGDIGIPLAYON — FEC & PLAY AREA MANAGEMENT SOFTWARE

Run every amusement park, trampoline park & indoor playground from one platform

TwigDigiPlayON is TwigSystem IT's Family Entertainment Center (FEC) software for the UAE and Dubai — ticketing, POS, RFID wristbands, access control and memberships, unified in a single, real-time system instead of disconnected tools.

One Platform, Every Attraction

Ticketing Software

Sell tickets online and in-venue for every play area and attraction.

Amusement Park POS

Fast checkout for tickets, retail, food and beverage at one till.

Play Area Booking

Kids' party bookings and play sessions scheduled in real time.

Attraction Management

Slot-based sessions and capacity control for every attraction.

Access Control

Gate entry and exit control for amusement parks and play zones.

Membership & RFID

Membership, loyalty and RFID wristband access for play centers.

Multi-Location Config

Run every trampoline park or FEC branch from one account.

CRM

Track guest history, feedback and repeat visits.

Analytics & Dashboards

Real-time reporting on sales, footfall and attractions.

Why UAE & Dubai FECs Choose TwigSystem

- ✓ RFID wristband system for cashless spend and attraction entry
- ✓ Access control and gate management built for amusement parks
- ✓ Membership and loyalty management built for FECs
- ✓ Trampoline park and indoor playground support in one system
- ✓ Multi-location configuration for chains across the UAE
- ✓ Real-time capacity, slot and attraction management
- ✓ Integrated CRM, SMS and guest notifications
- ✓ Local UAE / Dubai implementation and support team
